

COSMESA
Cosmetic

www.cosmesa.com.tr

Cosmesa Kozmetik, which was established in 2016 and has nearly 25 years of industry experience, produces cosmetic products for local and international markets in compliance with international standards and quality, through its people-oriented and environmentally-conscious work style.

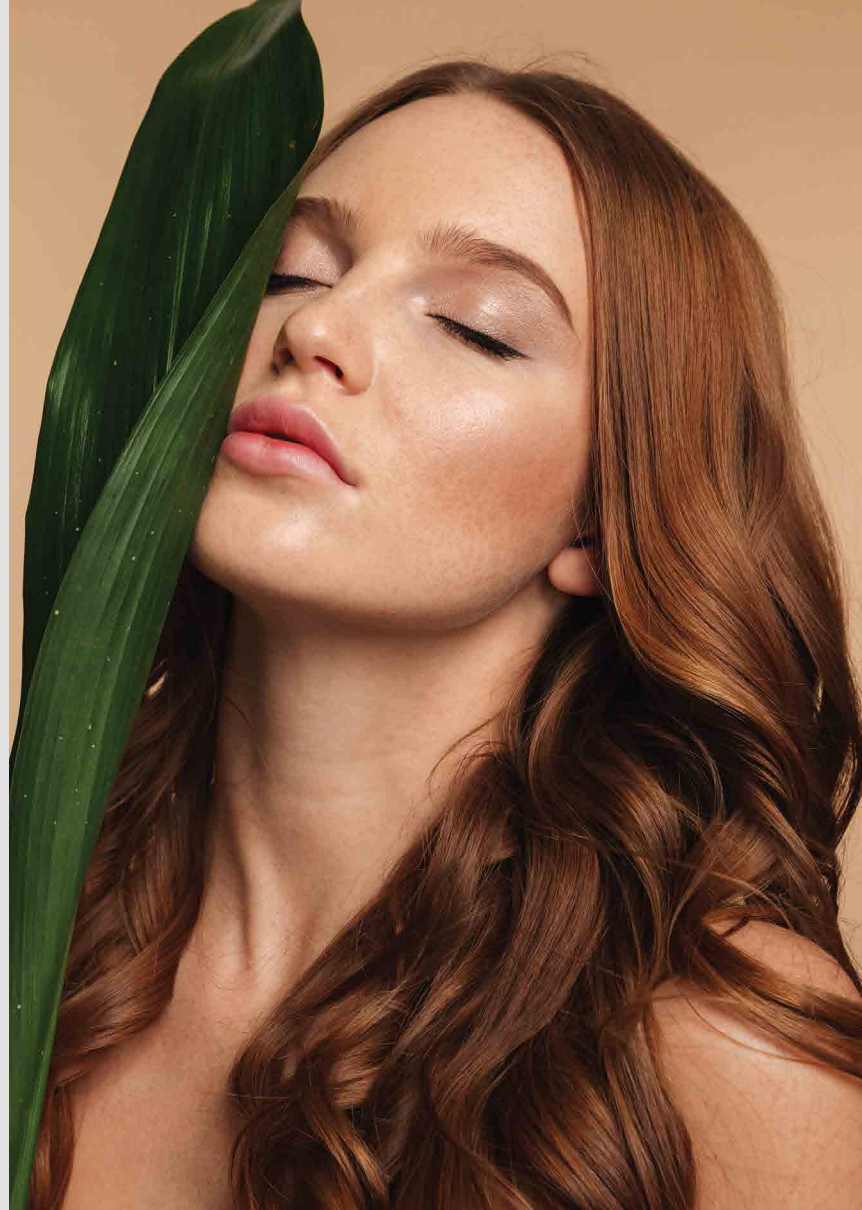

Despite our company's relatively young age, its founders and employees have worked for leading companies in the industry for many years, and put their industrial expertise back into the service of the cosmetic industry via Cosmesa.

While serving its consumers and other stakeholders in order to meet their needs at the highest level through products offered under its own brand name, Cosmesa also provides the best product development, production, and logistics services for customers who prefer to focus on their own brands, and who demand production service at international standards of quality.

Cosmesa, puts human health, environmental awareness, and international quality standards at the center of all its activities, and carries out production in modern facilities located in the Çerkezköy Organized Industrial Zone, all the while in complete accordance with the requirements of both international and local regulations.
